Opposites 1

This deck of *Pair-Ups: Opposites 1* targets very basic antonyms, such as *wet* and *dry*. Each of the 26 pairs of opposite cards consists of two pictures of opposite concepts.

At first, present up to six pairs of opposite cards at a time and make sure your students can label them and match them appropriately. As your students identify correct matches, model complete sentences that explain the relationship between the two cards, such as *Wet is the opposite of dry* or *This dog is wet, but this dog is dry*. Ask your students to name other things that show the same characteristics, such as clothes that can be *wet* or *dry*. Then use these cards to play games requiring matching pairs of cards, such as *Go Fish* and *Memory*.

Use your own judgment about the complexity of the responses to require from your students, depending on their expressive language skills.
